**Students' Seminars**

We have organized Presentation of Seminar especially for the Advance learners and slow learners. Seminar presentation builds their confidence and makes them prepare some topics to present it before the other students. They learn to learn the topic by heart for presentation. This activity helps them to boost their morale and helps them also do their curriculum study properly. Through this activity they are also motivated and guided to take participation in various competitions being organized by the various institutions and Government Departments. Through this we make them upgrade in their study and also communicate in English so that fear of English communication should be removed.
