Short Term Course on Vermicomposting

Year2023-2024

REPORT

Department of Zoology has conducted three-month certificate course of "Vermicomposting". Nowadays chemical fertilizers and pesticides are creating many problems such as decreasing fertility of soil and ultimately affecting on soil micro fauna. To overcome these problems there is great need of vermicomposting. To solve the problem of salinity and infertility of soil up to certain extent, department of zoology has started the certificate course in vermicomposting for of **B.Sc. I year** students. Department of zoology has established vermicomposting unit in college campus. Two vermicomposting beds having size15 X 4 X 3. We have introduced the species of earthworm *Esinia foetida*. The course includes study of earthworm species, production of vermicompost and vermiwash. The vermicompost beds were maintained properly by watering and other management. The objectives of this course are to provide the students to understand the detailed knowledge of vermicomposting, vermiwash, maintenance of beds, proper supply of organic matter etc. The vermicompost produced was used in college garden for healthy growth of plants. This course was conducted during the **1st July 2023 to 30th September 2023**.During this period the lectures and practical's of were conducted by faculties.

During this course the students get knowledge about the vermicompost. Students were sincerely attended and get hands on training of preparation of beds. In this course every resource person inculcates the awareness about the vermicomposting, vermiwash, different species of earthworms, their role in increasing fertility of soil etc. Students getting the ideas and they will be involved in establishment of vermicompost beds in their native areas and, they aware the society for the use of vermicompost, vermiwash etc.

All Time give a good suggestion ..... new update also give on time.

Teachers should encourage the students for thier weakness and should give guidance about the future entrance exams whichever is related to thier feild at least one doubt session in weekshould be conducted for the hard topics the proper time table with a break should be given in academics for saving the time of outside villager students and lastly the students who are

interested to do reasearch in a particular feild they should get the correct and perfect guidancewith a experienced mentor to do research in thier labs and should get guidance about researchpapers if any student want to make it happen that's all is needed here and most important thing is to decrease the price of assignments books , practical pages it will more helpful for those economically weak students who are struggling for it rest of all is good with a good teachers and with a excellent principal sir who conducted this survey for us thank you so muchsir and all teachers and staff who provided it to us lastly I request to the honourable principle sir and the owner sir of this survey that they should notice about it !
